AND HENRY COUNTY NEWS.

OFFICIAL PAPER OF CITY AND CO.

NAPOLEON, OHIO, NOVEMBER 15, 1894.

Good times are fast returning under the new Democratic tariff and a business revival has set in to stay.

There is no disputing the fact that tariff reform has made lower prices for clothing, food and shelter.

There is one consolation for the Democracy. They will have lots of fun figuring their gains over the vote of 1894 in 1895.

The coffee crop of 1894 is estimated at 12,500,000 bags in the annals of the trade and 2,000,000 more in excess of the consumption. A drop in prices is expected.

The result of the election this year will put a check upon the Populists. Next year the Democrats will get back most of the Populist votes that went astray after false gods.

The amount of taxes that will be paid by the sleeping car companies, operating in Ohio, falls much below the estimates made in the Legislature when the matter was up for discussion.

While the Republicans are rejoicing over the defeat of Chairman Wilson they should not forget that McKinley was beaten for re-election to Congress just after his tariff bill passed in 1890.

Had the Democrats of Henry county come out and voted on election day the whole Democratic county ticket would have been elected by good majorities. It was the stay at home vote which beat the Democrats.

Mr. DeWitt, though elected to congress, will not be a full fledged Congressman until March 4th, 1895. He will not go to Washington until the first Monday in December unless Cleveland calls an extra session of the new congress.

An exchange says the new law giving county commissioners in Ohio power to create a depository for county funds is not being generally adopted. The act provides that the commissioners may advertise for bids, and the bank offering the largest rate of interest is denominated the county depository.

An exchange says: "If a doctor makes a mistake, he buries it; if a merchant makes a mistake he never tells it; if a lawyer makes a mistake he crawls out of it; but if an editor makes a mistake he puts it on a sheet of paper for the world to look at and in every community there are cranks who think they are models of wisdom because they occasionally discover them."

Some remarks about Fulton county management, from the Napoleon Northwest are now in order.—Wau-seon Tribune.

Well, if that's the case, here goes: The Republican "management" of Fulton county reduced the Republican vote of that county from 2936 in 1893 to 2640 in 1894! And it took thousands in boodle to get the "boys" to keep the figure from falling lower. With such "management" any school boy can figure the ultimate result.

The Prohibition and Peoples Vote in Henry County.

The vote of the Prohibition party and Peoples party in this county is shown below, by precincts. The Peoples cast votes in every precinct in the county with the exception of two, while the Prohibitionists in every precinct but five:

	Prohibition	Peoples
Bartlow-North	8	29
Bartlow-South	14	5
Damascus	38	73
Flatrock	3	9
Freedom	3	12
Harrison	4	7
Liberty-East	6	1
Liberty-West	6	3
Marion-North	—	—
Marion-South	—	—
Monroe	2	8
Napoleon-A	2	9
Napoleon-B	8	8
Napoleon-C	1	2
Pleasant-Holgate	3	3
Pleasant-New Bavaria	—	—
Richfield	14	26
Ridgeville	9	22
Washington	—	2
Total	126	224

Last year the Prohibition vote in Henry county was 140, and that of the Peoples party 98, which shows the Prohibition loss to be 14, and that the Peoples gained 136. The votes cast for the Peoples party almost wholly came from the Democratic party, most of whom were fooled into the movement by Republicans who afterwards voted the straight Republican ticket, which is a trick they have long been noted for.

Result in the Fifth Congressional District.

The following are the official figures in this Congressional district, which show that DeWitt has a plurality of 1638:

	Snook	DeWitt
DeWitt	83	—
Henry	19	—
Paulding	—	669
Putnam	—	573
Van Wert	—	559
Williams	—	1082
Total	672	2310

Had the Democrats come out and voted Mr. Snook would have been elected.

OUR Republican friends should not feel too safe in their victory, some in their exuberance exclaiming that they will have control of the government for another thirty years! They should examine history a little. If they do they will find that landslide victories settle nothing. In 1890 a Democratic house, by a two-thirds majority, succeeded the Republican house that had passed the McKinley act. In 1892 this judgment of the people was reaffirmed, and a Democratic President with a Democratic majority in both houses of congress were elected. If a landslide majority for either party is a settlement of anything, that of 1892 should have settled the relations of both parties to the country for years to come.

THERE always has been and doubtless there always will be two distinct classes of Democrats. The one made up of those who stick to their party through thick and thin, who swallow their dislikes and work for the common purpose and who are Democrats at all times and under all conditions. To the other class belongs the ones who identify themselves with the party only when it suits them and when they see some personal gain in store; who are Democrats as long as they are truckled to and only when things are going as they think they should be.

The senate of the Fifty-fourth congress will stand: Democrats, 41; Republicans, 42; Populists, 5. The Populists are William A. Pepper, Kansas; William V. Allen, Nebraska; John P. Jones and Wm. M. Stewart, Nevada; James H. Kyle, South Dakota.

OUR rooster lacked feathers last week, but already he has commenced growing a nice crop. By next fall he will be in fine feather.

Vote of '93 Compared with the Vote of 1894.

The following table compares the vote of 1893 with the vote of 1894. It shows that there was a gain this year of 64 votes in 9 precincts and a loss of 423 in 11 precincts in the county over the vote of 1893. In 1893 the total vote cast in the county was 5,722, Cleveland received 3313 and Harrison 1981. The vote of 1892 compared with the vote of 1894, shows a loss of 639 votes. The comparison shows that in the two years the Republicans have gained 310 votes, while the Democrats have lost 998 votes! Democrats must come out and vote if they wish to keep up with the procession.

The Largest Crop Ever Known.
The crop of wheat harvested during the year is the largest the world has ever produced. The average production for the past ten years is 2,343,000 bushels. This year's exceeds that by 185,000,000 bushels. The crop of 1891 exceeds the average by 126,000,000 bushels, the crop of 1892 by 158,000,000 bushels, and 1893 by 168,000,000 bushels. The crops of the east for years exceed the average for some time by 635,000,000 bushels. In 1873 the world's crop was 1,700,000,000 bushels; in 1893 it was 2,408,000,000 bushels, an increase of 648,000,000 bushels in twenty years. During the past ten years the consumption has increased at the rate of 12,000,000 bushels a year, and during the preceding decade the increase was 8,000,000 bushels a year. There never was as much wheat in the world as there is to-day.

Western Man For President.
The populist organization will launch and pass away from this time on just in proportion as the Democrats drum protectionists and monopolists out of their party and reaffirm their purpose to destroy all class laws.

The general Democratic principle: "Equal rights to all; special privileges to none," must take a more specific form. Let the special privileges, which are to be abolished, be named. Generalities will not hereafter satisfy real Democrats.

The result of the election also virtually amounts to a demand that the next nominee of the Democrats for the presidency shall be a western man. It is doubtful whether the party can elect the successor to Grover Cleveland if the candidate resides east of Ohio.

Senator Hill's overwhelming defeat in New York forever sets at rest any claim he may have had to the nomination. Hill's political burial is due largely to his "protection" entanglements in the senate, his opposition to the income tax and his general inclination to favor legislation in the interest of New York plutocrats.

It will thus be seen that even eastern Democrats rebel against the semblance of protectionism in their own party. The true Democrats among them are ready to follow the lead of a western free trader. Among all the distinguished Democrats east of Ohio not one at this time seems available as a representative of the advanced thought of the party.

Only a western candidate who knows what Jeffersonian Democracy means and is not afraid to proclaim it in its entirety can reunite the party in 1896, and lead it to victory.—Chicago Herald.

DID you ever sit down and calmly consider what a newspaper man had to contend with? Well listen here, for instance. A day seldom passes without a visit from some one who has a fault to find with some one or something. He wants the editor to attend to it for him. "Why don't you score 'em'?" Then he goes into details, talks about this and that being an outrage. When the editor tells him he will publish this and that complaint, provided he will sign his own name to it, he says, "Oh no, I don't want to get into trouble with those people. Don't you see? Can't you put it in the shape of an editorial?" He doesn't care what the newspaper gets into by publishing his grievance, but he is to sleep, and cowardly to assume the responsibility himself. There are plenty of such people in every community, and the newspaper men always find out who they are.

Chicago Times.—The price of bread is falling. In New York two loaves can be had for five cents, and in Cleveland the price has been reduced to three cents per loaf. This is unprecedented, is due to the infamous Wilson bill, which is placing the necessities of life within the reach of the poorer classes.
